**[Company Name] Maintains ISO/IEC 27001:2022 Certification**

*ISO/IEC 27001:2022 Certification Ensures Ongoing Information Security Management System (ISMS) Compliance*

[City, State]—[Date]—Today, [Company Name] announced that the company has completed an ISO/IEC 27001:2022 surveillance audit, maintaining its certification to the internationally recognized standard of requirements for an Information Security Management System (ISMS).

The independent assessment was performed by [BARR Certifications](#), an ANAB-accredited auditing firm that serves as a trusted advisor to cloud-based and hybrid organizations around the world aiming to build trust and resilience through cybersecurity compliance.

To maintain this gold standard in certification, a company must clearly demonstrate an ongoing, structured approach to data management.

"[Company Name] is proud to cement our unwavering commitment to securing and protecting the data of our valued customers," said [Company Representative Name and Title]. "We hope this achievement inspires confidence and assures our customers and partners that we view data security as a top priority."

ISO/IEC 27001:2022 mandates numerous controls for the establishment, operation, monitoring, maintenance, and continual improvement of an ISMS, certifying that an organization has deep-rooted methodologies for business, people, and IT processes, along with an established framework to help identify, manage, and reduce risks surrounding information security.
